

**WRITE in RUSSELL
JEFF RUSSELL
GREEN PARTY CANDIDATE
FOR U.S. SENATE**

- **Bring our war dollars home!** Start spending on sustainable economic activities and productive investments.
- **Take care of the environment before it takes care of us.** Tax pollution, not employment. Start a moratorium on releasing untested chemicals into the environment
- **End corporate personhood.** A corporation is an economic tool, not a person. By making it a person, we become tools. Any judge who holds that a corporation is a person is out of touch with reality to the point of being a danger to himself/herself and others.
