DAREK
SHAPIRO
FOR MAYOR

ENERGY

My plan of tax rebates for insulating our homes saves \$ twice. Development incentives and green building codes will increase energy efficiency and generate electricity & heat on site.

HOUSING

New Zoning to allow additional units so all are taxed fairly and protect the lifestyle & beauty of cove & other neighborhoods.

EDUCATION

Make Pre-K a priority for all. Diagnose special-ed. kids early. Use proven new tools to balance and increase brain function. This will be paid for by saving millions in tutoring costs.

TRANSPORTATION

Get more incoming commuters on the train and off the roads. Provide jitney service to & from town centers and train stations.

HEALTH

Educate consumers to choose newly available clean electric energy instead of dirty coal and nuclear generated electricity that has given us respiratory ailments and cancer.

CRIME

Young adult counsellors can work with teenagers through the four existing city youth centers, to breakdown the neighborhood turf issues.
